DISCUSSION

WO0060599 to Kraemer, which was cited in the Chinese Office Action to corresponding Chinese Patent Application No. 02107994.3, discloses a digital-audio electronic cassette that is functionally interchangeable with a conventional tape cassette. The electronic cassette provides digital-audio data in a package and format that is compatible with the shape and size of the tape cassette. A signal processor in the electronic cassette converts the stored digital-audio data in a format such as WAV or MP3 into a digital data stream that is converted into an analog signal and provided to a transducer that is magnetically coupled to tape read head in a conventional cassette tape player. A display and controls on the electronic cassette allow a user to view the names of the digital-audio files and manipulate the files. The digital-audio sound files are stored in internal memory or in removable memory. The electronic cassette can be used in conventional analog tape recorder to produce digital-audio files that can be uploaded to a computer.

"Using Your NOMAD Jukebox," which was also cited in the Chinese Office Action, is an online interactive tutorial to guide users through the important operations on NOMAD Jukebox.

The citation of the foregoing references is not intended to constitute an assertion that other or more relevant art does not exist. Accordingly, the Examiner is requested to make a wide-ranging

and thorough search of the relevant art.

Pursuant to 37 CFR § 1.97(d), the undersigned attorney hereby certifies that each item of information contained in this Information Disclosure Statement was cited in a communication from a foreign patent office in a counterpart foreign patent application not more than three(3) months prior to the filing of the statement.

A fee of \$180.00 is incurred by filing of this Statement.

Respectfully submitted,

Robert E. Bushnell
